Note:

Notes:

1. If there were 20 races on the schedule you would count your best 12
2. We don't know exactly how many class races there will be but if we agree to count the best 60% that should work out.
3. If a boat misses a race it would be scored the number of boats in the series +1, so 6 unless we get more boats
4. Scoring would be the order of finish so 1 for first, two for second, etc.
